INTERVIEW SUMMARY UNDER 37 CFR §1.133

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Please make the following INTERVIEW SUMMARY of record according to 37
CFR §1.133(b), MPEP §713.04.

PARTICIPANTS:

1. Examiner: Thu V. Nguyen
2. Applicant's counsel: Vic Lin, Reg. No. 43,754; Daniel Dawes No. 27,123

DATE OF INTERVIEW: December 13, 2005**TYPE OF INTERVIEW:** Telephonic**EXHIBITS OR DEMONSTRATIONS:** n/a**CLAIMS DISCUSSED:** Generally, Claim 1.**PRIOR ART DISCUSSED:** Kageyama (US 6,681,157)

PRINCIPAL PROPOSED AMENDMENTS AND ARGUMENTS DISCUSSED:

Examiner Nguyen and Applicant's counsel discussed three primary features of the subject application:

1) the network communication server can perform communication over a plurality of communication modes;

2) the historical files store a chronology of historical events correlated with responsive functions;

3) the communication circuit installed in each object can transmit and receive messages without interruption with the network communication server and directly between other ones of the plurality of objects.

Examiner Nguyen asked Applicant's counsel to clarify in the written response the meaning of "communication modes" and what specific structures enable the system to communicate over a plurality of such modes, which by now Applicant has done in its amendment filed with the Request for Continued Examination (RCE).

RESULTS:

Though an agreement on the patentability claims was not reached, both the examiner and Applicant's counsel agreed that amending the claims to incorporate the above recited features and the structures for accomplishing such features would be helpful.

Applicant would like to thank Examiner King for granting the telephone interview. The Examiner is invited to telephone the undersigned attorney if any open issues remain with respect to the telephone interview.

Certificate of Mailing

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Mail Stop AF, Assistant Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on January 18, 2006
